

ELECTRICAL TECHNOLOGIST – Job # 19100

At Angstrom Engineering, we sell industry-leading thin film deposition systems that can be custom designed and are assembled on-site by a team of engineers and technologists who prioritize quality, service, and performance above all else.

We are a growing company looking to break into new markets and to increase our international presence. To assist us in meeting our goals we are offering a position for an Electrical Assembly Technologist. The ideal candidate will be a people person that can operate a variety of machines to perform assigned tasks. They will also show a keen interest in learning new technologies and taking ownership for improving products and processes.

QUALIFICATIONS OVERVIEW:

- Post-secondary education in electrical technology or equivalent.
- Strong electrical aptitude with experience in electrical wiring and troubleshooting.
- Resourceful with a proven ability to complete tasks.
- Good work ethic with a positive attitude and desire to work as a team.
- Work in a manner that garners respect from your peers and makes others around you better.

SPECIFIC RESPONSIBILITIES:

- Ability to take initiative to stay on top of things to allow work to flow smoothly in a busy work environment.
- Electrical Panel Layout and Design.
- Electrical wiring of control panels and sub-plates in accordance with drawings.
- Installation and field wiring of controls panels into the overall system.
- All wiring to be done in accordance with CSA standards.
- Test/troubleshoot complex electrical circuits.
- Responsible to maintain a clean working environment.
- General shop maintenance as required.
- Work with team members to continuously improve methods of building and wiring PVD equipment towards the goals of enhanced functionality and reduced cost.

ADDITIONAL INFORMATION:
